

Mr. Speaker,

If I know that the business plan this bill employs is based on grossly inadequate information about our neighboring state, Maine, and the half dozen other states we would compete with to our disadvantage

And If I know that this bill is opposed by:

- * NH Division of Motor Vehicles
- * City & Town Clerks Association
- * NH Municipal Association
- * My Milford Town Clerk and probably your town clerk

And if I know that this bill would

- * create an underfunded bureaucracy
- * impose large start-up costs on our state
- * rob our towns and cities of needed revenues that they're currently collecting
- * and therefore, put additional pressure on rising local property taxes

Then would I vote NO

and push the RED button to allow us to bring another motion forward
